## **Introduction**

Cvify is a basic resume builder android application that allows users to correlate and make resumes on the go. An Android app that allows you to create, share and save your resume on your device.

## **Existing System**

To design and develop a mobile application that will help users develop the resume on go and ability to save the data on your device and at the same time export it to anywhere.

### **Features:**

PDF Generation

Sharing PDF

Dynamism

Templates

Ability to export

## **Proposed System**

The aim of the proposed system is to develop a system with improved facilities. The proposed system can overcome all the limitations of the existing system. This system provides proper security and reduces manual and repetitive work.

- Security of data
- Ensure data accuracy
- Minimize repetition of manual data entry.
- Minimum time needed for the various processing
- Greater efficiency
- Better service.
- User friendly and interactive.
- Minimum time required

## **Scope**

As this is a generic software it can be used by a wide variety of outlets to automate the process of manually maintaining the information and records related.

## **Goal**

The main goal of the project is to maintain and dynamically generate resumes of the user and minimise manual and repetitive work.

### **Hardware Requirements:**

Android 5 or later

Ram > 1 GB

Dual core Processor

### **Technology Used:**

XML

Java

JSON

Android Studio

# Database Dictionary

## Feedback Page

## **Limitations of Existing System**

- Lack of security of data.
- Time-consuming.

To avoid all these limitations and make the system work more accurately it needs to be computerized.

## **Future Enhancement**

The proposed system is cvify resume builder application. We can enhance this system by including more features such as creating templates and integrating them with external providers such as LinkedIn in order to apply for the jobs directly through the app or export them into different formats.

## **Conclusion**

The design of the cvify resume builder is done by taking into consideration all the needs of the resume builder currently present in the market. The intention of this whole system is to bring ease to the end-users in making the resume. This system is designed to save time and will reduce complexity and is also user friendly.
